

Fig. P-1. Fire sky sunset, 24 Nov 2017, Cheyenne, WY. We describe and explain the source and cause of all these wondrous colors and fine rippled cloud structure.

Wonders of the Atmosphere

Table of Contents

1 The Sun and its Light

- 1.1 The Sun's Output
- 1.2 Reflection and Refraction
- 1.3 Light Waves: Interference and Diffraction
- 1.4 Light Waves: Scattering

2 The Clear Atmosphere: Sky Color and Mirages

- 2.1 The Colorful Canopy of Atmosphere
- 2.2 Molecular Atmosphere: Rayleigh Scattering
- 2.3 The Thin Atmosphere and its Layers
- 2.4 Sky Color and Optical Thickness
- 2.5 Reddened Skies
- 2.6 Aerosols, Sky Light and Color: Mie Scattering
- 2.7 Polarization
- 2.8 Mirages: Refraction Gone Awry
- 2.9 The Green Flash and the Blue Flash
- 2.10 Light of the Eclipsed Moon and Ozone
- 2.11 Sky Color Gallery

3 Auroras

- 3.1 Auroras and the Solar Wind
- 3.2 Auroras and Earth's Magnetic Field
- 3.3 Auroras and the Atmosphere
- 3.4 Colors of the Aurora
- 3.5 Auroral Morphology and Structure
- 3.6 Auroral (Magnetospheric) Substorms
- 3.7 Auroral Outliers
- 3.8 The Great Aurora Storm of 10-11 May 2024

4 Clouds and Fog: Composition and Forms

- 4.1 The Composition of Clouds
- 4.2 Light and Colors of Clouds

- 4.3 Formation of Clouds and Precipitation
- 4.4 Cloud Forms
- 4.5 Fog
- 4.6 Cloud and Fog Gallery

5 Clouds and Storm Systems: The View from Above

- 5.1 The View from Above
- 5.2 Small-Scale Systems: Valley Fog
- 5.3 Satellite Pixel Size: Limits of Resolution
- 5.4 Small-Scale Systems: Sea Breeze
- 5.5 Large Scale Wind, Storm, and Cloud Systems
- 5.6 Tropical Cyclones
- 5.7 Extratropical Cyclones = Winter Lows

6 Penetrative Clouds

- 6.1 Cumulus: The Nature of Penetrative Clouds
- 6.2 Changes of T and Td in Rising and Sinking Air: Soundings and Stability
- 6.3 The Realm of Penetrative Clouds
- 6.4 Mountains, Mushrooms, and Motions
- 6.5 The Time Lapse View of Clouds
- 6.6 Pyrocumulus and Pyroplumes
- 6.7 Gallery

7 Cumulonimbus: Thunderstorms

- 7.1 Thunderstorm Facts and Statistics
- 7.2 Thunderstorm Structure and Features
- 7.3 Accessory Features of Thunderstorms
- 7.4 Green Thunderstorms
- 7.5 Tornadoes
- 7.6 Cumulonimbus Gallery

8 Lightning

- 8.1 Thunderbolts
- 8.2 Lightning Characteristics
- 8.3 Discovering the Nature of Lightning
- 8.4 How Thunderstorms Generate Charge
- 8.5 The Life of a Lightning Bolt
- 8.6 Inventory of Lightning Types
- 8.7 Transient Luminous Events: Sprites, Etc.

9 Rainbows, Fog Bows, and Rays

- 9.1 Observations and Properties of Rainbows
- 9.2 The Geometric Optics Rainbow
- 9.3 Rainbows to Reflect On
- 9.4 Twinned and Disjoint Rainbows
- 9.5 Supernumerary Bows and Fog Bows: Waves
- 9.6 Crepuscular and AntiCrepuscular Rays
- 9.7 Hotspots and the Heiligenschein
- 9.8 Rainbow and Ray Gallery

10 Cirrus and the Layer Clouds

- 10.1 Contrails: The Usurpers
- 10.2 Cirrus: Angel Hair Clouds
- 10.3 Overcast Layer Clouds
- 10.4 Gallery

11 Ice Crystal Halos

- 11.1 Halos, Overlooked Cousins of Rainbows
- 11.2 The Incredible Variety of Halo Forms
- 11.3 Why Halos are so Varied
- 11.4 Forms of Ice Crystals
- 11.5 Crystal Orientation and Halo Forms
- 11.6 Geometric Optics of Halos
- 11.7 Complex Halo Displays
- 11.8 Halos and Optical Thickness
- 11.9 Simulating Halos: (Photorealism)

12 Patterned Cloud Sheets

- 12.1 Properties of Patterned Cloud Sheets

12.2 Fire Skies

12.3 Honeycomb Cloud Cells

12.4 Shear Wave Clouds and Cloud Streets

12.5 Ranks and Rows

12.6 Cloud Wakes and Vortices

12.7 Patterned Cloud Sheet Gallery

13 Mountain Wave and Banner Clouds

13.1 Flying Saucers are Mountain Wave Clouds

13.2 Pileus Plus: Mountain Wave Cousins

13.3 Banner Clouds

13.4 Gallery

14 Coronas, Iridescence, and Glories

14.1 Coronas, Glories, Iridescence, and Icarus

14.2 Coronas vs Iridescence: Lee Diagram

14.3 Limiting Factors for Coronas

14.4 Pollen Coronas

14.5 Viewing Glories

14.6 Modeling Glories: Lee Diagram

14.7 Iridescent Contrails

15 Diverse and Artistic Skies

15.1 Matching Painted and Photographed Skies

15.2 A Capsule Survey of Artistic Skies

15.3 Complex Convective Skies

15.4 Multi-level Clouds: The Time Lapse View

15.5 Complex Clouds and Optics
